## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-4, 6-15, and 17-22 are rejected under 35 U.S.C. 102(b) as being anticipated by WO'229.

WO'229 discloses an electronic device 100 comprising an accessory connector 102 for connecting accessories to the device, wherein the device comprises a support element 20b, which is arranged to support the accessory 20<sup>a</sup>, connected directly to the accessory connector. The support element comprises fastening elements 24 for fastening the accessory to the support element. The accessory is arranged to be fastened to the support element by sliding. The support element is also arranged to slide in respect to the base part of the device and wherein the support element is

Art Unit: 2839

arranged detachably in the base part of the device. The support element comprises a locking element for locking the accessory to the support element (also readable on the fastening elements).

3. Claims 1, 4-5, 8, and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Loh (6,483,698).

Loh discloses an electronic device 10 comprising an accessory connector 16 for connecting accessory 20 to the device, wherein the device comprises a support element 14, which is arranged to support the accessory connected directly to the accessory connector. It is also noted that the support element 14 of Loh is arranged to turn in respect of the base part of the device.

### ***Response to Arguments***

2. Applicant's arguments with respect to the amended claims submitted in response to the previous office action have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2839

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
